

On the **MEM** path of **Right Concentration**, yo**U** center, swirl, taking a **U-Turn**, turn, turn, turn...

BUTTerfly = when the **BUTTs**, that is, the ambivalences and objections **are flying**... Instead of going backwards, I can face it all!

Eagle English (CAPS, colors) **IS** a language as **REAL** as Hebrew is, and can thus be an effective translator to assist you to 1. take a **U-Turn** from the lie of **U** into the truth of **ME** and 2. speak the essence of creativity (ONEness), into being. For example, turn “I wish U would change” into “I can be the change Eye wish to see!”

Speaking of **change**, consider the word **BUTTerfly**... What new light do you **SEE** in it?
